MU10 | Warm edge muntin bar system

The muntin bar system, known as the „Wiener Sprosse“, is placed in the space between the panes of insulating glass without direct contact to the glass pane. The muntin system is available to our standard warm-edge spacers (SP13 and SP14).

Accessory articles:

Cross-shaped connector:	CN55 (Cera)
Staple edge key:	CN56 (Cera)
Edge key round:	CN57 (Cera)
